## PYTHON DEVELOPER

Hi, my name is John and I'm a Python dev since 2012. Please hire me!

## EXPERIENCES

Senior Python Developer - Foo company  
Since January 2018

Developer for the main Foo webapp. I also worked on migration from python 2.7 to 3.6. I've been scrum master for a team of 8 people. I added automated unit tests to the codebase.

- flask - mongodb - redis - pytest - scrum -

Python developer - Bar company  
January 2014 - December 2017

I developped Bar backoffice main features and worked on CI/CD

- django - mysql - jenkins -

Junior python developer - Bar company  
January 2012 - December 2013

I made multiple KPI dashboards and provided automation scripts

## EDUCATION

Bachelor of Software Engineering  
January 2008 - January 2012

University of California, Berkeley

## PROJECTS

foo.bar
